

Unique insurer and technology association alliances, coupled with customized products and services, allows Maloy to deliver risk management solutions to their clients more effectively than their competitors. Having built insurer technology application processing in the late 1990s, Maloy knows what it means to be a technology company and truly understands your business.

THE RISKS YOU FACE

Possible risks include:

- Unauthorized access
- Errors in coding and/or programming services
- Failure of your products or services to perform as intended
- Introduction of malicious code
- Copyright & trademark infringement
- Theft of client data from your websites
- Network security

HOW WE CAN HELP

Our team understands the unique challenges that the technology industry faces, and we have specifically trained our staff in the products and needs of the technology industry. We continually monitor industry trends for our clients and work with our underwriters to make sure their products can meet your individual needs. We represent the major underwriters who specialize in the technology industry and are nationally recognized by the industry as one of the few technology insurance broker specialists in the US market. We have also developed special buying programs for technology councils and technology associations throughout the country, providing specialized coverage and pricing for members of the those organizations.

PROGRAMS WE STRUCTURE

- Errors and Omissions
- Copyright, Trademark and/or Patent Infringement
- Network Security
- Directors and Officers
- Side A coverage
- Employment Practices Liability

Note: These markets represent a partial listing and is subject to change based on ongoing research and analysis.

ABOUT US

Maloy Risk Services, Inc. has been a leading provider of property and casualty insurance brokerage and risk management services since 1872. Led by its fifth-generation CEO, Richard Maloy, Jr., the company has succeeded by leveraging its deep industry experience, technology and industry specialization servicing Hedge Funds, Venture Capital, Technology and Life Science companies. They are a major sponsor of the New Jersey Technology Council and other IT & Life Science industry groups and are regular speakers on panels and webcasts.

Maloy Risk Services has offices in New York City, Princeton, NJ and Atlanta, GA.
