INTRODUCING MALOY RISK SERVICES –

THE PREFERRED INSURANCE PARTNER OF THE HEDGE FUND ASSOCIATION:

Maloy Risk Services™
Protecting Companies Since 1872

The Hedge Fund Association has joined forces with Maloy Risk Services, an established and respected specialty insurance broker, to bring you a suite of value-added insurance solutions.

How This Partnership Helps You

By working with the underwriters ahead of time, Maloy Risk Services creates products that are specific for your industry group and works on upfront structured endorsements to create real value. This approach provides you with underwriting clout and buying power, while allowing your company to be underwritten on its own merits. If you already have a broker relationship, Maloy's sister company, InsureHiTech, will allow access to these programs.

The Landscape Has Changed

Growth, increased fraud, and broader investor exposure have changed the hedge fund world dramatically. Since 1999, Maloy Risk Services has emerged as a leader in risk management advice and insurance placement for hedge funds.

The Risks You Face

Increased scrutiny of hedge funds has created a rich environment for plaintiffs' attorneys and SEC regulators. Possible risks include:

- Class action lawsuits resulting from divergent strategies not outlined in your private placement memorandum
- SEC investigations surrounding suspicious trade activity
- Dissident suits from angry shareholders
- Errors in execution of trades
- Miscalculation of your NAV
- Breach of your fiduciary duty
- Theft by your employees
- Non-compliance with ERISA

It's the Right Time

Capacity is expanding in the hedge fund underwriting world. In 2000, there were only three insurers at work in this arena; now, more than triple that number are involved, with even more planning their entry. This new capacity coupled with claims experience has started to put downward pressure on pricing, making the products much more affordable. As more and more hedge funds purchase coverage, this too will create reductions in cost by spreading the risk of the industry over a larger and larger pool of insurance premiums.

How We Can Help

Our team understands the unique challenges that hedge funds face. We continually monitor industry trends for our clients and work with our underwriters to make sure their products can meet your individual needs. We represent all of the major underwriters who specialize in the hedge fund industry. In addition, we continually monitor the new players entering the space to make sure you are always on the cutting edge of coverage and price.

Maloy Risk Services™
Protecting Companies Since 1872

About Us

Maloy Risk Services, Inc. is a fifth generation owned and operated property and casualty insurance broker. Since 1872, Maloy Risk Services has provided risk management services to clients across the country with the greatest concentration in NY, NJ, CT and PA. Currently the firm operates out of NYC and Princeton, NJ with clients all over the World.

The niche aspect of the business created and fostered by the fifth generation CEO, Richard Maloy, Jr., has proven to be a turning point in the company's storied history. Unlike most brokerage operations, Maloy Risk Services has grown organically by using technology and market specialization, creating a truly unique brokerage operation that caters specifically to hedge funds, venture capital, technology and life sciences companies.

While other brokers have grown through a strategy of acquisition, Maloy Risk Services has grown organically fostered by a cohesive corporate strategy built on the strength of its partnership with its clients. Maloy Risk Services focuses on you and your business, not the next acquisition target.

Programs We Structure

- Directors and Officers / Professional Liability (Management Liability)
- Side A coverage for Directors
- Employment Practices Liability
- Fiduciary Liability
- Crime
- Property
- General Liability
- Worker's Compensation
- Umbrella Liability
